If shirts could talk

Ng Lung-wai will create an artwork on a giant canvas of 300 white T shirts. As the T shirts are mounted on a panel, one by one, the visual effect of the show which combines image with drama is going to be spectacular. Another artwork by Ng — a “mini city” comprising 400 architectural models collected by the artist — is also on show.

Date: March 31 to April 3

Venue: G/F, Open Space, Central Plaza, Wan Chai
